CLOUD TRANSFORMATION

Robust Cloud & Data Center Infrastructure Solutions

The pandemic of 2020 has accelerated the shift to cloud computing – a trend that has been developing over the past few years. The rise of the remote workforce has forced businesses to closely examine its IT infrastructure to find the most effective way to meet the needs of the new normal. Many have determined that transitioning to the cloud is the answer.

Businesses are also looking to the cloud as a cost saving strategy. A recent study found that 73% of enterprise businesses saw achieving cost savings by optimizing cloud usage as the biggest driver for a cloud transformation initiative. As a result, the global public cloud infrastructure market is expected to grow 35 percent to $120 billion in 2021.

Once you make the decision to shift some or all of your infrastructure to the cloud, you must make several key decisions on how you can best make that happen. Evaluating cloud solution alternatives can seem daunting but Hitorra Technologies can help guide you through what can often be a complex process.

Hitorra's
CLOUD TRANSFORMATION SOLUTION OFFERING

Hitorra is a customer-centric technology expert and value-added reseller focused on providing you with the right cloud solution for your specific business requirements and budget. Hitorra is cloud platform agnostic, so is ideally suited to fit the right solution to your needs rather than forcing you into a predetermined solution.

ADVANTAGES:

» **Cloud Platform Agnostic** — With extensive knowledge and experience with AWS, Azure, and Google Cloud platforms, Hitorra is perfectly positioned to guide you through the appropriate cloud transformation solution.

» **Top-Heavy Engineering** — With Hitorra, you'll be working with senior engineers throughout the engagement. Our engineering team has a proven track record of properly assessing business needs and matching them with appropriate solutions.

» **Customized Solutions** — We listen to your needs and tailor a customized cloud solution to meet them. We provide a broad range of solutions for the most complex public/private/hybrid cloud migration, optimization, deployment, automation, and management projects using a security-centric approach.

FLEXIBLE & NIMBLE ORGANIZATION

Hitorra gives you our undivided attention when developing, designing, implementing, and managing your customized cloud solution.

THE STEPS OF OUR SOLUTION INCLUDE:

SELECTION: We pay attention to what you tell us about your business, use cases, security requirements, and more to ensure we make the best possible recommendation in relation to your environment and your ultimate cost. In addition, our team of experts will evaluate your existing on-premises infrastructure and business requirements to provide an analysis of which workloads can be moved to the cloud and which cannot.

DESIGN & DEVELOPMENT: Our extensive expertise in cloud hosting, cloud migration & optimization, hybrid cloud deployment, automation & management enables us to help you develop a robust cloud infrastructure solution.

CONTRACTING: We help you create a contract with your chosen platform provider that makes sense so you can appropriately manage costs during your activity peaks and valleys.

IMPLEMENTATION: We surround you with senior engineering talent with proven track records in developing customer-focused solutions to ensure a smooth implementation of your solution.

POST GO-LIVE: We recognize that evolving environments can cause new problems, so we are committed to ongoing discussions to help you adapt your cloud solution to changing needs.

ONGOING OPERATIONS: Our managed services offering includes a 24/7 network operations center that provides you with complete cloud managed services including corporate governance and compliance management, on-demand on-call/on-site advanced-level engineering and support, and proactive maintenance, enhancement, and optimization.

THE HITORRA DIFFERENCE

Hitorra Technologies is built on a foundation of strength based on trust - trust in the competence of our technical resources and in our business culture to do what we say and say what we mean and in our commitment to do what is right for your individual situation. As a smaller organization, we make sure you don't get "lost in the shuffle" and are better able to gain the best possible cloud economics and optimizations from the solutions we provide to you.

Each member of our team has succeeded in business and technology leadership positions and brings that knowledge and experience to every one of our engagements. We listen to your needs and tailor a customized technology solution – not an off-the-shelf, one-size-fits-all application.
