

ENTERPRISE SECURITY

Consulting & End-to-End Solutions to Minimize Your Cyber Risk

The volume of recent malware threats observed by McAfee labs averaged 419 threats per minute, up more than 10 percent from Q1 to Q2 2020. New office malware increased 103 percent from Q1. For the entire year 2020, McAfee labs recorded more than six million malicious detections. Ransomware, phishing, and advanced threats are all spiking...with no end in sight. **How secure is your IT infrastructure? Isn't it time to reduce your cyber risk?**

The security experts at Hitorra can help. We provide consulting and end-to-end managed enterprise security solutions to help you assess your security landscape and ensure you are protected against cyber threats. Enterprises from all industries rely on Hitorra to achieve a robust security profile and minimize the risk of a breach.

THE HITORRA DIFFERENCE

Hitorra is unique in our “top-heavy” engineering approach, surrounding you with engineering talent with proven track records in assessing business needs and developing the appropriate solutions to meet those needs. Every member of our team has succeeded in business and technology leadership positions.

We listen to your needs and tailor a customized technology solution — not an off-the-shelf, one-size-fits-all application. We recognize that evolving environments can cause new problems, so we are committed to ongoing dialogue and feedback to help you adapt to your changing needs.
