

HIGH IMPACT TECHNOLOGY

to Meet Today's Business Challenges

AGILE, OUTCOME-ORIENTED SOLUTIONS for a modern, secure IT infrastructure

Business technology continues to develop at a breakneck pace, but advanced technological capabilities are only truly effective when used to generate positive business outcomes. In today's hypercompetitive environment, businesses are faced with increased demands for data center modernization and security, collaboration tools, and cloud-based solutions. The most effective way to meet these demands is to engage an experienced, trusted technology partner that understands your needs and can help you achieve your key business goals.

Hitorra Technologies is a strategic IT consulting, contracting/outsourcing, and technology solutions provider.

We are also a value-added reseller focused on modernizing and securing your IT infrastructure and systems to generate positive business outcomes. We bring domain expertise across cloud, compute, OS, virtualization, SAN, storage, backup & recovery, network, security, unified communications/collaboration, and remote work solutions to help you seamlessly execute small and large scale projects.

Hitorra Technologies is built on a foundation of strength based on trust — trust in the competence of our technical resources and in our business culture to do what we say and say what we mean and in our commitment to do what is right for your individual situation.

HITORRA ADVANTAGE

Broad technology domain expertise

Security-centric

THE HITORRA DIFFERENCE

Hitorra is unique in our “top-heavy” engineering approach, surrounding you with engineering talent with proven track records in assessing business needs and developing the appropriate solutions to meet those needs. Every member of our team has succeeded in business and technology leadership positions.

We listen to your needs and tailor a customized technology solution – not an off-the-shelf, one-size-fits-all application. We recognize that evolving environments can cause new problems, so we are committed to ongoing dialogue and feedback to help you adapt to your changing needs.
